

DACS-GN

Handling mass and volume

Carton-Line checkweighers are ideal for the inspection of boxes and bags of up to 60kg for weight compliance and to detect where items are missing.

- ▲ Front USB for the storage of production data
- ▲ 300 programmable presets
- ▲ Optional Reject
- ▲ Optional infeed conveyor
- ▲ IP30/IP65 Rating

Typical system

Ishida Carton-Line Checkweighers

Every Ishida checkweigher system is configured and designed to suit the application. From a brand-new production line to integration into an existing one. Carton-Line Checkweighers can be configured to weigh only, weigh and reject. Suitable for inventory control or validation of master carton contents.

Features & Benefits

Reject Systems

Third party reject system integration

Pusher Reject - Suitable for heavy weight products including boxes and bags

Roller Track

Gravity Roller Track - For holding rejected product. Ideal for open trays and bulk boxes.

Weighing Flexibility

From the ability to utilise the checkweighers weigh data controls for other third party equipment to application specific software. The Carton-Line checkweigher can be built to a specification that meets production requirements.

Peace of Mind

Verifying and checking 100% of products, the system helps support batch and regional weight compliance.

Trusted Partner

We developed our first checkweigher in 1975 and have continued to develop systems with the same level of quality and focus. All Ishida checkweighers contain our own developed and manufactured software, electronics and weigh cells.
